ABOUT PREPAID CARDS

What is a prepaid card?

A prepaid card is a pay-as-you-go payment card. Cardholders 'load' money onto the card, which can then be used to buy goods and services, or withdraw from cash machines, in the same way as debit cards. Prepaid cards do not have an overdraft facility.

What are the benefits?

For cardholders, prepaid cards are a simple, safe way to participate in an increasingly card-based economy. They are great budgeting tools and - with the right card - are low cost.

*These fees are for transactions in the UK. Please see our terms and conditions for full details.
